EDUCATION

Dakota State University

Madison, SD

Bachelor of Science in Computer Science, Minor in Mobile App Development, GPA: 3.96

Aug. 2023 – May 2027

EXPERIENCE

Resident Assistant

Aug. 2025 – Present

Dakota State University

Madison, SD

- * Led and supported a residential community of 30+ students, addressing conflicts and resolving issues through clear communication and problem-solving
- * Collaborated with campus staff and peer leaders to plan and execute community programs, managing logistics and timelines
- * Enforced university policies while maintaining a supportive and inclusive living environment

Trojan Tutor (CRLA Certified)

Jan. 2025 – Present

Dakota State University

Madison, SD

- * Tutor undergraduate students in computer science topics including programming fundamentals and problem-solving
- * Assist students with debugging code and developing logical, structured approaches to technical problems
- * Apply CRLA-certified tutoring methodologies to improve student comprehension, retention, and academic performance

Software Developer Intern

May 2024 – Aug. 2024

Campus Trends

Lagos, Nigeria

- * Developed and maintained a responsive WordPress website supporting business operations and serving hundreds of weekly users
- * Enhanced site navigation and front-end user interface to improve usability and content accessibility
- * Collaborated with non-technical stakeholders to gather requirements and implement site updates
- * Diagnosed and resolved front-end and plugin-related issues to maintain site stability and performance

PROJECTS

Personal Portfolio Website | *HTML, CSS, JavaScript, React*

Dec. 2025 – Present

- * Developed a full-stack web application using with Flask serving a REST API with React as the frontend
- * Implemented GitHub OAuth to get data from user's repositories
- * Visualized GitHub data to show collaboration
- * Used Celery and Redis for asynchronous tasks

Mini Autocomplete Engine | *C++, Git*

Nov. 2025 – Present

- * Developed an autocomplete engine in C++ using Tries for efficient prefix matching and fast lookup
- * Implemented hash maps and min-heaps to rank and retrieve suggestions based on frequency and relevance
- * Optimized the algorithm for fast search results and low memory usage

NextEra Energy Hackathon | *Figma, UI/UX Design, Workflow Documentation*

Sep. 2023

- * Designed a UI prototype for a disaster-response web application and earned an award for innovative design
- * Applied system design principles to plan workflows and structure interface components for a scalable solution
- * Created high-fidelity mockups and documented features, design decisions, and user interactions
- * Collaborated in a cross-functional team to translate real-world requirements into a technical solution

TECHNICAL SKILLS

Languages: Python, C/C++, JavaScript, HTML/CSS

Frameworks: React, Node.js

Developer Tools: Git, VS Code, Visual Studio, PyCharm, IntelliJ, Figma, WordPress
